## Introduction

This is the Adult Social Care Improvement Plan for 2018 onward which was reviewed in light of the Care Inspectorate Wales inspection report of June 2018.

We anticipate that the plan will continue to be developed based on feedback from staff, adults who require care and support and carers, external review, audit and challenge. Immediate and longer-term actions are described within the plan, the former in greater detail as this is where changes are required most urgently. Delivering all the changes promptly and effectively will mean we can provide the people of Powys, at the earliest possible time, with realistic reassurance that adults are being safeguarded effectively and that adult services is fulfilling all of its statutory responsibilities to the highest possible standard.

Accompanying information and information on the wider context can be found through links in the Appendix.

# Adult Social Care

## How We Will Work Together

We believe that everyone should be seen as unique individuals who have strengths and hopes as well as needs or problems. We want to support people to live the best life they can, helping them to find solutions that fit. We will focus on what matters to you.

<b>We will:</b>	<b>You can help by:</b>
<b>Listen, be open, honest, friendly and non-judgmental.</b>	<b>Having your say and tell us about your experience.</b>
<b>Work with our partners to protect you from abuse and exploitation.</b>	<b>Being aware and raising concerns about people who may be at risk of being harmed.</b>
<b>Support you to maintain your personal dignity, self-respect and to focus on what matters to you.</b>	<b>Staying safe, being healthy and active.</b>
<b>Support you to make informed decisions so that you can do what's important to you.</b>	<b>Engaging with us and taking responsibility for your health and keeping well.</b>
<b>Provide good, accessible information and advice.</b>	<b>Using online services where possible.</b>
<b>Help communities to be inclusive and supportive to minimise loneliness and isolation.</b>	<b>Be aware of what is available in your community and getting involved.</b>
<b>Be open to new ways of working and to embrace technological solutions, enabling a focus on getting value for money.</b>	<b>Providing ideas and trying new ways of working together.</b>

## Key Aims

- 1. To promote independence and self-care wherever possible.** To work alongside partners, in particular health, to ensure that individuals with complex care needs have the assessment they require under legislation and ensure that appropriate placements are available to meet their needs if required.
- 2. To support adults who require care and support. To ensure that timely assessment and the right level of care and support is available to adults who require this support;**
- 3. To provide care and support for carers which will enable them to be supported to continue their caring role;**
- 4. To identify risk positively and effectively when providing support to adults** by making sure their needs are accurately assessed and met effectively, with positive outcomes for them. This will be in a strengths based approach which will involve re-connecting with their community networks and supporting carers to continue to care for their relative. Risk management needs to take into account the capacity of the individual to make specific decisions in terms of their lives, and decisions need to be made in compliance with legislation in terms of best interest where deemed appropriate;
- 5. To provide and commission a flexible and affordable mix of high quality support services for adults who require care and support and their carers** to meet the diverse range of their individual needs and circumstances;

These aims are underpinned by the following principles

- Most adults can live independent lives and can make decisions in relation to how they wish to live their lives. Good outcomes can be achieved if individuals are supported and reconnected within their own communities, close to their families and friends;
- Preventative services and early intervention to support adults and their carers should be provided in ways that give them every chance to remain in their communities if this is their choice or wish;
- If remaining in their own home is not possible then it is essential that adults are supported to meet their care and support assessed needs. That affords them every opportunity to reduce isolation and encourage re-connection / employment if wished;
- Where appropriate, adults should be supported into employment or undertake roles which are of interest to them, to increase independence;
- Multi-agency arrangements to assessing and managing risk to adults need to be robust;
- Care services to be local wherever possible, enabling adults to remain in their communities, maintaining networks and minimise disruption;
- The responsibility for meeting the needs of adults who require care and support and their carers rests across all services for adults, including statutory and independent providers.

## Priority Area A – Leadership and Governance

Sponsor – Chief Executive

Workstream Lead – Director of Social Services / Head of Strategic Policy and Performance

### CIW SUCCESS CRITERIA

*Leadership, management and governance arrangements together establish an effective strategy for the delivery of good quality services and outcomes for people. Meeting people's needs for quality services are a clear focus for councillors, managers and staff. Services are well-led, direction is clear and the leadership of change is strong. The authority works with partners to deliver help, care and support for people. Services are designed and commissioned to: improve outcomes for individual people; reflect community need; and address key priorities within the local population. Work with partners in shaping the pattern and delivery of services is informed by the views and experiences of people who use or may need to use services. Services are delivered by a suitably qualified, experienced and competent workforce that is able to recognise and respond to need in a timely and effective way.*

### RELEVANT CIW INSPECTION RECOMMENDATIONS

Tidalen 6

- *Senior leaders within the local authority must continue to provide strong political and corporate support for adult services to ensure service improvements are prioritised and sustained with pace.*
- *The local authority should strengthen the existing adult services improvement plan to ensure specific, clear and time-bound actions to improve access arrangements. This should include objectives to ensure sufficient management and staff capacity, contingency and expertise is in place to manage demand and to support good quality and timely decision making.*
- *Senior managers should refresh and re-invigorate their commitment to regional and local safeguarding arrangements.*
- *Performance management and quality assurance arrangements, including scrutiny of service demand and routine auditing of the quality of practice, needs to be embedded so that elected members and managers at all levels have timely, appropriate and accurate performance and quality information.*
- *Senior managers and elected members should maintain an up-to-date understanding of the complexities and risks involved in delivering adult services, underpinned by accurate, timely performance management information, to assure themselves, partners, staff and communities that their responsibilities are discharged to maximum effect.*
- *The local authority must strengthen the oversight of their response to complaints to improve reporting and analysis and ensure there is a mechanism to capture lessons learned.*

1. Information, Advice and Assistance;
2. Assessment;
3. Care and Support;
4. Review;
5. Safeguarding and Protection

Sponsor – Head of Operations for Adult Services

Workstream Lead – Senior Manager – Older People / Senior Manager – Mental Health & Disabilities / Head of ICT / Professional Lead – Business Support Resources

### QW SUCCESS CRITERIA

#### Information, Advice and Assistance

*The authority works with partner organisations to develop, understand, co-ordinate, keep up to date and make best use of statutory, voluntary and private sector information, assistance and advice resources available in their area. All people have access to comprehensive information about services and get prompt advice and support, including information about their eligibility and what they can expect by way of response from the service. Arrangements are effective in delaying or preventing the need for care and support. People are aware of and can easily make use of key points of contact. The service listens to people. Effective signposting and referring provides people with choice about support and services available in their locality, particularly preventative services. Access arrangements to statutory social services provision are understood by partners and the people engaging with the service are operating effectively.*

#### Assessment

*All people entitled to an assessment of their care and support needs receive one in their preferred language. People experience a timely assessment of their needs which promotes their independence and ability to exercise choice. Assessments have regard to the personal outcomes and views, wishes and feelings of the person subject of the assessment and that of relevant others including those with parental responsibility. This is in so far as is reasonably practicable and consistent with promoting their wellbeing and safety and that of others. Assessments provide a clear understanding of what will happen next. Recommended actions, designed to achieve the outcomes that matter to people, are identified and include all those that can be met through community based or preventative services.*

#### Care and Support

*People experience timely and effective multi agency care support to help and protection where appropriate. People using services are supported by care and support plans which promote their independence, choice and wellbeing, help keep them safe and reflect the outcomes that are important to them people are helped to develop their abilities and overcome barriers to social inclusion.*

### Safeguarding and Protection

*Effective local safeguarding strategies combine both preventative and protective elements. Where people are experiencing or are at risk of abuse neglect or harm, they receive urgent, well-coordinated multi-agency responses. People are not left in unsafe or dangerous environments.*

### Case Management

*Regular auditing, to ensure management oversight of the quality of work being undertaken. Independent oversight in respect of care planning for adults.*

*All staff will have access to policies and procedures which will can be used to effectively guide their practice. Appropriate referrals are made by all agencies based on an agreed threshold.*

*Management information is analysed at all levels of the Service and plays a key role in decision making. Evidence that Management Information is informing Decision Making. Performance against key performance indicators is readily available.*

*Complaints are responded to in a timely manner. Independent investigation of all complaints. Learning from complaints shared across the service and leading to improvements in practice. Analysis of complaints to inform planning and delivery of services.*

## **RELEVANT CIW INSPECTION RECOMMENDATIONS**

- The local authority should urgently improve systems to ensure the management and prioritisation of allocation, assessment and service delivery to prevent delays in people receiving services.*
- The local authority must ensure all safeguarding enquiries are undertaken within statutory timescales to ensure all adults at risk of harm or abuse are adequately protected.*
- An assurance mechanism should be implemented immediately to ensure a clear management oversight and understanding of demand, capacity and prioritisation of workflow within the adult safeguarding system.*
- Effective, multi-agency quality assurance systems, education and training arrangements should be established to ensure the quality of referrals to PPD are consistently aligned with the requirements of the SSWBA.*

- *The quality of assessments and care plans must be improved to ensure they are consistently of a good quality, with a clear focus on well-being outcomes, risks, and risk mitigation ensuring clear timescales and accountabilities for actions.*
- *The quality, consistency and timeliness of record keeping must be improved; all staff and managers must ensure records are of good quality, up to date and systematically stored.*

## Priority Area C – Workforce

Sponsor – Professional Lead Culture & Leadership Development

Work-stream Lead – Head of Operations for Adult Services / Senior Officer – Culture & Leadership Development

### CIW SUCCESS CRITERIA

Services are delivered by a suitably qualified, experienced and competent workforce that is able to recognise and respond to need in a timely and effective way. The Council is able to ensure that staff and services meet the standards that have been set for them. Services and support improve outcomes for people.

### RELEVANT CIW INSPECTION RECOMMENDATIONS

- *The local authority should strengthen the existing adult services improvement plan to ensure specific, clear and time-bound actions to improve access arrangements. This should include objectives to ensure sufficient management and staff capacity, contingency and expertise is in place to manage demand and to support good quality and timely decision making.*
- *A robust workforce strategy should be produced to include short, medium and long term plans for recruitment and retention of the adult services workforce. Permanent appointments are required in key posts to provide resilience and stability within the service.*
- *Senior managers should take steps to improve the frequency and consistency of supervision for front line staff.*
