# EMERGENCY PLANNING & RESILIENCE

PS Ashley Brice September 2017

### **Aim**

To clarify the Police expectations of Powys County Council

### **Major Incident**

### Major Incident (MI) Definition

An event or situation, with a range of serious consequences, which requires special arrangements to be implemented by one or more emergency responder agencies.

### The Four Stages

- Initial Response (Usually Police)
- Consolidation Phase
- Recovery Phase (Usually LA)
- Restoration To Normality

## Joint Emergency Services Interoperability Programme (JESIP)

JESIP was primarily about improving the way the Police, Fire & Rescue and Ambulance services work together when responding to major multi-agency incidents.

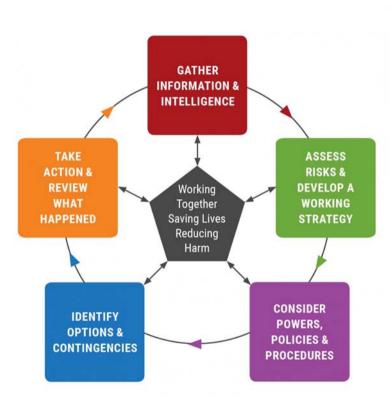

JESIP produced much needed practical guidance to help improve multi-agency response. The Joint Doctrine: the interoperability framework sets out a standard approach to multi-agency working, along with training and awareness products for organisations to train their staff.

Initial focus was on improving the response to major incidents, JESIP is scalable. The joint working principles and models can be applied to any type of multi-agency incident and in fact could be utilised in a multitude of environments where organisations need to work together more effectively.

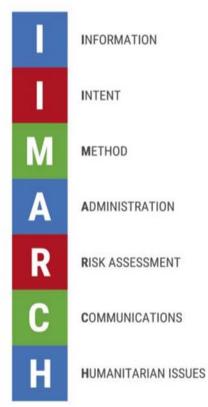

### **JESIP – Shared Situational Awareness**

| M | MAJOR INCIDENT                  |
|---|---------------------------------|
