Dear Mrs Evans,

**Re: Llanerfyl Church in Wales Foundation School and Banw CP School**

Thank you for the pre-consultation documentation that shows that Powys County Council has considered carefully the future of education in Llanerfyl and Banw and had given the community the opportunity to have a voice in this.

The cabinet report explains the current position of schools in the area and the Trustees believe that at the heart of any school is its children and their needs are the most important consideration. Having considered the contents of the documents that and attended one of the consultations and talked to people in the community, the Trustees are happy to support the proposal to establish a new Voluntary Aided Church in Wales school in Llanerfyl.

We wish to support all stakeholders in creating a school that gives every child the very best opportunities to learn and achieve their full potential.

Yours sincerely
