<ul style="list-style-type: none"> The proposal to close the restaurant at Neuadd Brycheiniog will impact on staff using the service within the building and the meals provided to Arosfa day centre. The introduction of an increased school meal price will impact on parents who pay for their children to have school meals. Modernising County Hall restaurant will affect customers and staff who use the facility, with reduced hot meal service and providing a coffee shop style offer.

5. How does your proposal impact on the council's strategic vision?

Council Priority	How does the proposal impact on this priority?	<u>IMPACT</u> Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	<u>IMPACT AFTER MITIGATION</u> Please select from drop down box below
The Economy We will develop a vibrant economy	With the closure of the Neuadd Brycheiniog restaurant will result in 3 staff redundancies and no canteen facilities for office staff.	Poor	Staff will be offered redeployment into available positions within the Council.	Neutral
Health and Care We will lead the way in effective, integrated rural health and care	<p>The proposal to increase school meal prices has the impact to drive down uptake without ongoing and sustained mitigation measures.</p> <p>The review of staff canteens is an internal PCC matter and would not impact on non-Council citizens.</p>	Neutral	Impact on uptake based upon previous price changes, has not led to reduced uptake. Uptake has risen, alongside uptake of FSMs which the Service believe is related and correlates with the activity of the Service to meet with schools, school councils, parent evenings, and ad-hoc promotions and special events, this will continue. Residents and Communities We will support our residents and communities	An increase in school meals is not a decision taken lightly. Close monitoring of global and supplier food prices are taken into account and any school meal prices are increased accordingly and if required. The catering team are conscious that parents demand value for money and we take this into account when developing our school menus.	Neutral	Prior information to schools to communicate any changes in school meal prices is important this is done prior to the summer holidays, so parents are informed well in advance. The future use of social media will aid us to also communicate this effectively.	Good

6. How does your proposal impact on the Welsh Government's well-being goals?

Well-being Goal	How does proposal contribute to this goal?	IMPACT Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	IMPACT AFTER MITIGATION Please select from drop down box below
<p>A prosperous Wales: An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.</p>	<p>With the proposal to develop food offers in high schools and the County Hall restaurant we are very eager to educate and contribute to global environmental issues such as recycling and use of single use plastics and to develop initiatives with our schools and suppliers to support and educate how best we can all help to make our environment better.</p>	<p>Good</p>	<p>Work is developing to start initiatives with our local supplier Radnor Hills to support schools to best recycle plastic drinks bottles that are supplied to our high school kitchens. Also the restaurant in county hall no longer uses plastic cutlery and we only use compostable plates, cups etc. for our corporate functions.</p>	<p>Good</p>
<p>A resilient Wales: A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).</p>	<p>As above</p>	<p>Good</p>		<p>Good</p>

<p>A healthier Wales: A society in which people’s physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.</p>	<p>With the development of food offers in our High Schools, we are very conscious of the growing obesity concerns within our country. Our school catering teams meet regularly with high school Nutrition Action Groups (SNAG) to discuss with pupil’s school meals and nutrition. The feedback from these groups help us to develop the school menus. However, we need to develop better more appealing menu options in our high schools, one that pupils will help to develop.</p> <p>In Powys we have introduced a holiday scheme into 4 of our primary schools this summer (2018). Part funded by the WLGA. ‘Food and Fun’ is a school-based programme that provides free healthy meals, nutritional education and physical activity to children in areas of social deprivation during the summer holidays.</p> <p>The programme forms part of the WLGA’s School Holiday Enrichment Programme (SHEP) and is jointly funded and supported by the council, Welsh Government and other partner agencies including the health board.</p> <p>It aims to tackle holiday hunger and improve children’s health and well-being, as well as address social isolation and a lack of routine by providing a safe, happy place for children to go to during the holiday.</p> <p>This programme is funded by the Welsh Government for next year also (2019) so we will look to develop the programme to include high school aged pupils next year. It has positively benefited all those</p>	<p>Very Good</p>		<p>Very Good</p>
