7. How does your proposal impact on the council's other key guiding principles?

Principle	How does the proposal impact on this principle?	IMPACT Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	IMPACT AFTER MITIGATION Please select from drop down box below
Sustainable Development Principle (5 ways of working)				
Long Term: Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.	A reduction in officers will decrease the ability to develop the current range of people so that they are physically healthy and are able to sustain their own health in the long term	Poor		Choose an item.
Collaboration: Working with others in a collaborative way to find shared sustainable solutions.	A reduction in officers will decrease the ability to work collaboratively with others	Poor		Choose an item.
Involvement (including Communication and Engagement): Involving a diversity of the population in the decisions that affect them.	A reduction in officers will result in fewer opportunities to engage with the population and communicate as effectively	Poor		Choose an item.
Prevention: Understanding the root causes of issues to prevent them from occurring.	A decrease in officer capacity will result in preventative measures being significantly impacted and only reactive measures to be taken	Poor		Choose an item.
Integration: Taking an integrated approach so that public bodies look at all the well-being goals in deciding on their well-being objectives.	A decrease in officers will result in a lack of ability to be integrated with others and subsequently non achievement of joint objectives	Poor		Choose an item.
Preventing Poverty: Prevention, including helping people into work and mitigating the impact of poverty.	Rural poverty / deprivation and physical poverty will increase with the physical literacy of the county being significantly affected	Poor		Choose an item.
