Health and Care We will lead the way in effective, integrated rural health and care	The North Office Review supports the Corporate Improvement Plan, the One Powys Plan and Vision 2025 priorities by seeking to ensure that working locations support staff in delivering services and that front-offices are accessible to service users. The review recommendations support the co-location of services, enabling them to be joined-up and to provide integrated support to service users. The review supports the underpinning 'making it happen' section of the Vision 2025, by providing the workforce with an agile and flexible environment, by prioritising residents and communities within the recommendations and by making the best use of our resources.	Good		Choose an item.
Learning and skills We will strengthen learning and skills	As above	Good		Choose an item.
Residents and Communities We will support our residents and communities	Whilst staff may locate away from Welshpool and this may have a negative impact on the town, depending on the end use of Neuadd Maldwyn, there could be a positive benefit for residents.	Neutral	All options for the future of Neuadd Maldwyn will be explored as well as options for staff to hot desk from Welshpool thereby maintaining a presence in the town	Good

Source of Outline Evidence to support judgements

- Meetings with service representatives as part of the review have indicated that they require fit for purpose front-office accommodation in Welshpool and Newtown
- The Engage4Change group has been consulted and is supportive of the proposals
- Analysis of space utilisation at Neuadd Maldwyn indicates that the building is significantly under-utilised. The internal layout of the building is also very inefficient – with only 66% of the building being utilisable as office and meeting space, whilst 22% of the building consists of corridors and stairways

6. How does your proposal impact on the Welsh Government’s well-being goals?

<p>A prosperous Wales: An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.</p>	<p>The project aims to ensure that Powys Offices are utilised efficiently. Neuadd Maldwyn is currently significantly underutilised and therefore does not support the ‘prosperous Wales’ well-being goal.</p>	<p>Good</p>		<p>Choose an item.</p>
<p>A resilient Wales: A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).</p>	<p>The project aims to be an enabler to the Agile Working programme. As such, the intention is to ensure that staff are able to work where they need and when they need to. This will include the enablement of staff to work closer to home or to clients or sites and to therefore reduce the need to travel.</p>	<p>Good</p>		<p>Choose an item.</p>
