To	Deputy Head of Financial Services	
From	David Thompson	Project Manager
	David Thompson	Budget Holder
	Lynette Lovell	Service, Head of Service
Date	24 th September 2019	

Details of Virement

Please refer to notes to ensure all the relevant details are included.

Welshpool High School – Storm and foul drainage works

Due to the poor condition of the existing waste, foul and storm water drainage at the school installed during the 1950-1970s, a phased approach is require stop short term flooding in the kitchen facilities and external areas. The impact is a high risk of flooding and the closure of the school.

An initial budget of £15,000 was approved for storm water drainage improvements to prevent flooding on the Flash Leisure Centre Artificial Turf Pitch (ATP) which the school uses.

Initial work has been completed with a commitment of £20,736. It is recommended a further £19,264 is allocated initially to undertake improvements:

1. Emergency drainage works to the gullies next to the new Multi Use Games area and running down stream to the kitchen/corridor access and out towards the pedestrian gate access leading to the housing estate on Gungrog Road.
2. Drainage around the gym, science and courtyard areas.

This will be subject to further design and investigation works and pricing of the works.

Estimated costs:

New storm water drainage works adjacent to ATP **£20,736**

Storm and foul water drainage improvements **£19,264**

Total Estimated Costs £40,000

Approved budget £15,000

Funding requiring approval £25,000

Funding source:

The work is to be funded from Schools unallocated capital.

Options considered

- Option 1 – Do nothing.
- Option 2 – Undertake the drainage improvements to meet prevent flooding into the school and school kitchen and maintain Environmental Heath requirements.

Risks

The status quo represents a significant risk to the authority in terms of:

- If **Option 1** is to do nothing and Service providers will not comply with the Health & Safety at Work Act 1974 to provide a working environment and premises which is safe and without risk to health and suitable catering facilities to support educational delivery. To meet school design standards.
- If **Option 2** is chosen then the authority will comply with the above legislation and meet service provider operational property needs.

Service objectives/benefits

Powys Change Plan - Maintaining the Schools to a fit for purpose standard ensuring they are capable of delivering high quality educational experiences for all pupils. The infrastructure improvement will ensure the authority demonstrates it is complying statutory legislation and maintaining its buildings and property to a fit for purpose standard.

Financing

This type of investment represents an upgrading of the Schools Services infrastructure. This is not normally the type of project funded by the schools delegated budget.

It is recommended to proceed with Option 2.

Capital Receipts						
Grant						
Supported Borrowing	£345,796-15				£345,796-15	
Prudential Borrowing Reserves						
Total	£345,796-15				£345,796-15	

NOTE: Total financing must match increase required above.

Other Financial Implications (future years capital/ revenue – Do not leave blank)

An initial survey has been completed however due to the drainage condition, this work could not be priced. It is likely there may be further funding required to meet this risk. The work is subject to the completion and agreement of final contract accounts.
