Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
<p>This proposal seeks to further embed our direct payments offer, by making direct payments easy to understand and use, through effective communications and engagement, and easy to use self-service options. The risk to the community is low but a sustained and well-planned communications and engagement will be needed to promote the benefits of direct payments to both residents and adult services staff. The proposal is in line with the Social Services and Well-being Act Wales (2014) which promotes independence and flexibility and choice around care.</p>

According to the Joint Commissioning Strategy for Adults with a Learning Disability 2015 – 2020:

‘Powys has over 90 people in placements outside of the county and enabling the people who wish to return to the county is a key local ambition because they can be extremely expensive, hard to monitor as they are usually at a distance from the commissioning authority and can be of low quality.

‘Furthermore, it is felt that the greater the reliance on specialist services, the more likely it is that competency to manage behaviours that challenge within general learning disability services decreases and specialist services have to respond to an increasing volume of referrals.’

10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
This proposal responds to the fact that there are approximately 120 adults with a learning disability that reside in placement outside of the County. Enabling those who wish to return to Powys is a key priority. This is because out of county placements can be expensive, and hard to monitor as they are usually at a distance from the commissioning authority.

[Research](#) has shown that misconceptions regarding moving and handling, insufficient knowledge of specialist equipment, and an inflexible approach to care can lead to too much generalisation regarding the perceived need for two carers as opposed to one. There is evidence to suggest that a greater involvement of occupational therapists in the right-sizing of care packages through strengths based reviews can help to optimise peoples' independence, with a resulting saving in domiciliary care costs.

There is well established evidence that an investment in occupational therapy resource can deliver significant returns in terms of both cost savings, and cost avoidance, if OTs are used to review new and existing double handed care packages. The proposal has the added benefit of releasing care capacity. This extra capacity can then be used in a more targeted way, which will assist with our ongoing efforts of discharging people from hospital in a timely manner.

Proposal	IBP Proposal 9- Recommissioning and decommissioning						
Outline Summary / Description of Proposal							
Working in partnership with service providers to review the way services are delivered in Powys to ensure that such services are accessible, of the right quality and at an affordable cost for all people who need to arrange their support. Alongside this, and to generate further efficiencies we will continue to promote reablement and recovery throughout all services to ensure that resulting support packages are appropriate. Our commissioning will be underpinned by a set of clear principles that support the health and care priorities within our Vision 2025:							
<ul style="list-style-type: none"> - Most cost effective means of achieving outcomes - Utilising the most appropriate resource to meet needs - Ensuring that our commissioned services promote wellbeing as set out by Welsh Government to tangible effect - Stimulating a diverse range of appropriate services and organisations (including social enterprises) to ensure that the market for care in Powys remains vibrant and sustainable.

Our workforce strategy has a clear priority of ensuring that we have the right workforce which is stable and sustainable (priority 1, Adult Services Workforce Strategy). This means that we need the right people with the right skills in the right role, to effectively support adults in Powys who require our support.

Our business intelligence data allows us to better understand future demand for care in Powys and as a result, we need to design, remodel and implement any changes to adult social care structures to meet these demands.

Proposal	Efficiency savings through Customer Centred Digital Solutions (delivered through the Digital Powys Programme)						
Outline Summary / Description of Proposal							
<p>The way we work and live today is evolving fast, with digital technology having an impact on all our lives. Our resident's lives are changing and many public service users now expect access 24/7 to our services and that number is increasing all the time. It is widely recognised that public services need to radically transform to keep pace with the digital evolution and customer expectations as well as finding new ways to add value.</p> <p>There is a strong case for transformation in Powys County Council. Demographic trends, rurality, financial pressures, a need to improve performance in key service areas are key drivers for change and all can to some extent be mitigated through the effective use of digital tools and technologies.</p> <p>With reduced funding over the next 3 years and greater demand for services, we need to be innovative in the solutions we design for the future, harnessing the power of the data revolution and digital technology. Our Digital Transformation Programme will drive delivery of digital solutions whilst providing financial savings. The programme has 7 key work streams, this proposal focusses on:-</p> <p>Customer Centred Digital Solutions Workstream</p> <ul style="list-style-type: none"> • Will aim to ensure our processes and interactions are designed around our customers and what they need. <p>We will</p> <ul style="list-style-type: none"> • Redesign our services to be customer focused, with quicker end-to-end times • Increase the number and quality of digital services • Improve customer satisfaction and 24-hour access to services • Increase the number of 'My Powys' accounts • Increase self-serve use and decrease call volumes and emails

Prevention: Understanding the root causes of issues to prevent them from occurring.	By designing our processes to be intuitive and keep customers updated throughout their journey it will be less likely that customers will contact the council time and time again. By understanding customer requirements early and joining up customer information we will be able to have a holistic view of our customers and provide targeted prevention rather than wait until the customer reaches crisis point. 10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
--	----------------------------------

The way we work and live today is evolving fast, with digital technology having an impact on all our lives. Our resident's lives are changing and many public service users now expect access 24/7 to our services and that number is increasing all the time. It is widely recognised that public services need to radically transform to keep pace with the digital evolution and customer expectations as well as finding new ways to add value.

With reduced funding over the next 3 years and a greater demand for services, we need to be innovative in the solutions we design for the future, harnessing the power of the data revolution and digital technology. Our Digital Transformation Programme will drive delivery of digital solutions whilst providing financial savings.

There will be an impact on our customers, however this will be a positive impact providing an improved customer journey, and additional choice in the way they access our services.

Areas of significant concern were identified in the report including support for pupils with additional learning needs and standards in secondary schools. As a result, the support provided to schools needs to be improved to enable schools to deliver support more effectively. Therefore, the review of the school service needs to evaluate how to improve the support provided to schools. For example, support for behaviour.	Poor	Fully evaluate the impact of the staffing review so that any gaps in provision are identified. For example, the gaps in provision for ASD support throughout the county. 4. Impact on Other Service Areas

Does the proposal have potential to impact on another service area? (Including implication for Health & Safety and Corporate Parenting)
PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY

The changes will impact positively on other Services as the changes will drive improvement in their financial acumen and undertaking tasks themselves – like forecasting and owning their own budgets, this will reduce demand on finance staff time. Other changes like getting services to undertake tasks correctly, again will see less finance staff needed to do corrections. The improved compliance is expected to be delivered through regular training and rolling out the SLA so services understand what will and will not be done by finance.

Proposal	Reductions in staff numbers and alternative sources of funding utilised to fund some work.						
Outline Summary / Description of Proposal							

In summary the proposal is to

- Externally fund a post for 21st Century Schools by a grant. This would mean that 2 posts are funded - currently 1 post is funded by HRA
- Lose Admin Support – 0.6 FTE
- Maintain current staff levels without additional support for Local Sourcing or contract management and limited ability for the development of ongoing supplier resilience checks (will need to be undertaken by services) (see audit committee review)
- Maintain current resources will limit support for major 'unknown' or transformational projects such as the North Powys Health Partnership or ICF or grant funded projects

Proposal	Budget Savings Proposal for Cleaning Service for FY 2019/2020						
Outline Summary / Description of Proposal							
<p>Proposal to deliver revenue savings from the Cleaning service for FY 2019/20 by implementing the proposals below:</p> <ul style="list-style-type: none"> Increasing income by expanding business opportunities: explore providing a handyman service for minor repairs and maintenance, communal garden clearance/maintenance for general public/housing service. This will be work outside of the HOWPS contract or work subcontracted from HOWPS. A number of internal services have requested reviews of current cleaning schedules in order to make efficiencies. Property services have asked to review cleaning in a number of corporate buildings to save up to £150k on their cleaning costs. Requests will be reviewed along with staffing. This could further affect negatively upon the Service. Introduce a service brand and use social media to expand communication to the residents and public we serve, with potential networking opportunities with greater income potential.

Service Area	Housing	Head of Service	Nina Davies	Director	Nigel Brinn	Portfolio Holder	Cllr James Evans
Proposal	Housing General Fund savings 2020 to 2023 – whilst maintaining the provision of statutory strategic housing services, housing advice and homeless service, and housing standards.						
Outline Summary / Description of Proposal							

The Housing General Fund (HGF) controllable budget is £634,816.08. HGF funds the following main statutory duties:

Assessing Housing Need¹ – undertake and update a Local Housing Market Assessment and a Gypsy Traveller Accommodation Assessment, maintain a register of housing need in Powys (without which the Council cannot allocate social housing) and assess housing need and demand to allocate resources and housing grants for new homes in Powys.

Housing Advice and Homelessness² – a duty to prevent homelessness and assist those who are homeless, to provide advice and assistance in relation to housing and accommodation needs, to produce and implement a homeless strategy and to provide temporary and emergency accommodation.

Housing Standards³ – a duty to make sure the Housing Health and Safety Rating System is applied in Powys, to license certain premises, to offer Disabled Facilities Grant (DFG) and adaptations for people with disabilities. Housing standards includes energy efficiency advice and funding⁴, to reduce fuel poverty.

The service will achieve cost reductions in the 2020/21 financial year through a restructure of Housing Senior Management.

If the service can secure alternative funding and implement its restructure from April 2020 it is expected that the savings targets will be achieved. However, there will be a reduction in capacity and resource. There will also be associated risks to the delivery of statutory services, especially if further cuts are required or it is not possible to secure alternative funding. The risks are:

- Capital allocations need to be maintained at current levels to sustain income generation. The service may not be able to maintain its current income targets if there is a reduction in the capacity and resources available to deliver the services that earn income. This will mean that services, including statutory services which are provided 'cost neutral' to the authority may be reduced. If statutory services reduced in relation to housing standards in the private rented sector this may increase the number of persons who present to the Council as homeless, for example because they are living in unsatisfactory housing. The service also provides energy efficiency advice and funding. A reduction in resources may lead to an increase in the incidence of fuel poverty in the county.
- Homelessness is increasing in Powys. If insufficient funding is provided or found for the posts that prevent homelessness, the Council may experience an increased numbers of households who require the provision of full homeless duties, including temporary accommodation. The increased use of temporary accommodation – including 'bed and breakfast' – will increase overall costs to the Council of homelessness.
- If there is an increased use of 'bed and breakfast' and temporary accommodation there will be additional costs incurred by Income and Awards as the Council does not get full subsidy from the DWP for the costs of temporary accommodation. There will also be additional costs in securing Bed and Breakfast accommodation. This is estimated at £100,000. However, increasing demand for homeless services mean this estimate could be too low.
- The Housing Service may not be able to implement the Homeless Action Plan agreed by Cabinet, as a result of insufficient resources being available to prevent homelessness.
- Posts which blend HGF and HRA funding will need to have robust business cases to demonstrate that funding is allocated correctly in line with the work delivered. The Welsh Government is in the process of issuing revised guidance covering the management of the HRA. Any cuts in HGF resources will need to be considered in the context of maintaining a clear and legally compliant division between HGF and HRA funding. Any transgressions may result in funding cuts from the Welsh Government.

Impact Assessment (IA)

The integrated approach to support effective decision making

- If the Council is unable to provide up-to-date Local Housing Market Assessments and assess housing need it will not have the evidence needed to develop a compliant Local Development Plan. This will reduce the ability of the Council to secure affordable housing through the planning system and to draw into Powys from the Welsh Government multi-million pound grants to support the development of new homes.
- Failure to undertake Gypsy and Traveller Accommodation Assessments means the Council could face legal challenges from the gypsy and traveller community and Welsh Government.

Health and Care We will lead the way in effective, integrated rural health and care	<p>Increased homelessness, poorer standards in the private rented sector, increased B & B/temp accommodation and unassessed housing need. Reduced compliance with statutory duties. Standards of accommodation are closely linked to health and care outcomes. Homelessness particularly affects vulnerable people and can drive people into a state of vulnerability where one may not have existed before. Evidence in the Council's homelessness review shows that the households affected by homelessness are also often known to be reliant upon other services and agencies, in particular social services and health services.</p>	Very Poor	<p>The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. Learning and skills We will strengthen learning and skills	<p>Homelessness can significantly affect households with children, which can have a detrimental effect on the child's education as they do not have a suitable environment in which to learn. Any reduction in the Council's ability to reduce the risk of poor standards of accommodation, particularly in high risk Category One hazards, will adversely impact on the home environment of many children.</p>	Poor	<p>The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. Greater employment opportunities are required in order to increase the economic situation of households and decrease reliance on welfare benefits.” The Homeless Action Plan may not be viable with fewer resources at a time of increased homeless presentations.</p> <p>Any reduction in the ability of the Council to justify and evidence claims for Welsh Government funding for new affordable homes will reduce the ability of Powys to attract and retain the employees needed to contribute towards prosperous Wales. Sustainable Development Principle (5 ways of working)				
Long Term: <i>Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.</i>	The service with less capacity is unlikely to be able to progress its preventative agenda (preventing homelessness, housing market dysfunction, poor housing standards). It will become an increasingly reactive service, which will ultimately cost more and will not meet the needs of future generations.	Poor	The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. If it is not possible to secure replacement resources, the Council will not be able to provide or contribute to sustainable services.	Poor
Collaboration: <i>Working with others in a collaborative way to find shared sustainable solutions.</i>	The service currently collaborates with a number of organisations and agencies. However with fewer resources and capacity there will be less collaboration.	Poor	The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. If it is not possible to secure replacement resources, the Council will not be able to provide or contribute to sustainable services.	Poor
Involvement (including Communication and Engagement): <i>Involving a diversity of the population in the decisions that affect them.</i>	No impact expected	Neutral		Choose an item.

Prevention: Understanding the root causes of issues to prevent them from occurring.	The service has adopted a preventative agenda with regard to its statutory duties. Less resource and capacity will result in the service becoming more reactive and increases the risk of unpredicted expenditure falling on the council to discharge statutory obligations and duties.	Poor	The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. If it is not possible to secure replacement resources, the Council will not be able to provide or contribute to sustainable services.	Poor
Integration: Taking an integrated approach so that public bodies look at all the well-being goals in deciding on their well-being objectives.	No impact expected	Neutral		Choose an item.
Preventing Poverty: Prevention, including helping people into work and mitigating the impact of poverty.	The statutory services provided by the service are directly linked to poverty. Accordingly less prevention with regard to homelessness, dealing with housing standards including energy efficiency and reduced availability of genuinely affordable homes will result in greater poverty.	Very Poor	The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. If it is not possible to secure replacement resources, the Council will not be able to provide or contribute to sustainable services.	Poor
Unpaid Carers: Ensuring that unpaid carers views are sought and taken into account	The Homeless Action Plan priority "Continue to evolve and harness community-based services to assist in the prevention of homelessness" will include looking at the support available in communities to assist carers to maintain their accommodation. This may not be possible with reduced resources and capacity.	Very Poor	The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. If it is not possible to secure replacement resources, the Council will not be able to provide or contribute to sustainable services.	Poor
Safeguarding: Preventing and responding to abuse and neglect of children, young people and adults with health and social care needs who can't protect themselves.	The Homeless Action Plan includes a commitment to preventing homelessness of households with children and vulnerable adults. This is to benefit the welfare of those concerned and help to protect children and vulnerable adults from harm. This may not be possible with reduced resources and capacity.	Very Poor	The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. Mitigation		
The Housing Service is considering alternative grant/HRA/income funding, where that is available and legally compliant with rules governing the use of HGF and HRA resources. If it is not possible to secure replacement resources, the Council will not be able to maintain services and meet its statutory obligations and duties.		

Risk Identified	Inherent Risk Rating	Mitigation	Residual Risk Rating
If there is a reduction in capital funds for the housing-related capital loans and grants programme, the Housing Service will have its income reduced, reducing its ability to fulfil statutory duties in relation to housing standards. This will also increase the number of homeless households who come to Council, for example living in unsatisfactory housing. This will mean that services including statutory services, may be reduced. Capital allocations need to be maintained at current levels to sustain income generation. If the statutory services are not provided in relation to housing standards in the private rented sector this may increase the number of persons who present to the Council as homeless as they are living in unsatisfactory housing. The service also provides energy efficiency advice and funding so there will inevitably be an increase in the incidence of fuel poverty in the county.	Medium	Ensure that the current capital allocations are maintained	Low

Impact Assessment (IA)

Homelessness is increasing in Powys. If alternative funding is not secured for the posts that prevent homelessness, the Council may experience increased numbers of cases, which would require the provision of full homeless duties including temporary accommodation. This may lead to increased use of temporary accommodation and Bed and Breakfast accommodation. If there is an increased use of Bed and Breakfast and temporary accommodation there will be additional costs incurred by Income and Awards as the Council does not get full subsidy from the DWP for temporary accommodation. There will also be additional costs in securing Bed and Breakfast accommodation. This is estimated at £100,000; however it could be more.	High	Service is seeking alternative grant funding for non statutory posts and seeking to increase the provision of temporary accommodation provided by the HRA.	Medium
The Housing Service may not be able to implement the agreed Homeless Action plan agreed by Cabinet, due to increased levels of presentations and fewer resources available to prevent homelessness.	High	Service is seeking alternative grant funding for non-statutory posts and seeking to increase the provision of temporary accommodation provided by the HRA.	Medium
The blend of HRA and HGF for posts that carry out duties for both funds need to have robust business cases. HRA funding is ring fenced and Welsh Government are in the process of issuing revised guidance.	Medium	The development of robust business cases regarding the allocation of HRA funding in accordance with the revised guidance.	Low

<p>The Economy We will develop a vibrant economy</p>	<p>Community hubs will continue to support the economy in the following ways: Drawing people into town centres, which benefit the local shops and businesses. Providing support for job seekers and self-employed/small businesses through the IT and information provision which offers supported access to jobseekers online and government gateways. Volunteer opportunities allow people to develop skills and experience to help with returning to the workplace Learning opportunities also build skills Libraries/community hubs play an important role in Universal Credit applications in Powys. Range of cultural activities in Welsh and English draw people into hubs, and attract them to live/stay in Powys 69% of respondents to the library user survey 2018 stated that the library service provides economic benefit to them. Transfer to a charitable model will not impact on service delivery – the public should not see any difference to service (as with Freedom Leisure)</p>	<p>Neutral</p>	<p>Investigation of offering start-up businesses space to work within local community Work with partners to increase range of cultural and learning activities provided in community hubs Seek ways of extending/increasing access through working with partners and communities - removal of barriers to access</p>	<p>Unknown</p>

<p>Health and Care We will lead the way in effective, integrated rural health and care</p>	<p>The community hubs will continue to offer wide-ranging support to health and care, including provision of up-to-date information for individuals, families and carers.</p> <p>The library service is Dementia Friendly and offers literature in support of this to those living with Dementia and their carers.</p> <p>Libraries are part of the national Book Prescription schemes for adults and children, and works closely with Powys Health Promotion unit to widely disseminate campaign information to libraries across the county (e.g. measles vaccinations, or stop smoking campaigns).</p> <p>Books on Prescription Reading Well for Mental Health list launched in Wales June 2019 – supports SEP objective about improving access to mental health services</p> <p>Information is provided around both physical and mental health conditions, and parenting.</p> <p>The library service offers a “carer’s card” with specific benefits for carers, and which recognises some of the issues that they face in accessing the service.</p> <p>Public libraries have enabled people to access online cognitive behaviour courses prescribed for them.</p> <p>Activities in community hubs will have a positive impact on health and wellbeing, e.g. rhythm and rhyme sessions for parents and babies encourages bonding as well as a social network for peer support. Dementia reading aloud sessions have proven benefit, and groups such as book groups, knit and natter and poetry groups offer mental stimulus and social</p>	<p>Neutral</p>	<p>Introduce provision of gateway to Information, Advice and Assistance, working with Social Care</p> <p>Mobile hub strategy could provide means to maintain local service delivery in smaller communities across Powys, but is strongly dependent on willingness and priorities of both internal and external services to achieve this, and to offset costs. Health partners keen to be involved with transformational proposals. (good/very good)</p> <p>To continue to participate in the North Powys Wellbeing Hub development project (Newtown).</p> <p>Seek ways of extending/increasing access through working with partners and communities - removal of barriers to access</p>	<p>Good</p>

<p>Learning and skills We will strengthen learning and skills</p>	<p>Community hubs will continue to support the strategic equality plan aim of closing the gap in attainment, through provision of quality resources for learners of all ages and abilities, and help with accessing and using those resources, including independent study space and providing a location for 1-1 tuition and courses. 68% of respondents in the adult library user survey 2018 said that the library has helped them to learn something new, and 76% said that they had developed new ideas and interests.</p> <p>Being free at the point of delivery, the library service ensures that no-one need be deprived of opportunity through poverty.</p> <p>The library service’s existing resources fund does not meet Welsh Public Library Standards requirements for provision of up-to-date stock for residents, which will include resources to support learning.</p> <p>“Access to Research” is an online service available through public library computers only, providing access to a huge UK collection of academic articles and papers (the terms of the agreement means that it is not available remotely via the library web pages). This is heavily used by researchers in Powys. Ancestry.com and FindmyPast local and family history online resources are similarly freely available from library computers only (not from home computers).</p> <p>Volunteer opportunities allow people to learn, practice and share skills locally in their community.</p> <p>Literacy development (including digital literacy) - Staff and volunteers provide sessions such as 1-1 computer support, coding, family learning through storytimes, lego clubs, homework support etc.</p>	<p>Neutral</p>	<p>Work with partners to further develop offer in Welsh and English (existing partners offering learning opportunities include Mudiad, Mentrau Iaith, Welsh for Adults, Adult Learners Wales, Aberystwyth University lifelong learning department). 	<p>Literacy in Welsh and English is developed for all ages e.g. through rhythm and rhyme and storytimes to book clubs and poetry groups and reading aloud for adults sessions. Pre-school family sessions in particular help to develop school readiness and communication skills.</p> <p>Demand for support for development of digital skills is high</p> <p>Transfer to a charitable model will not impact on provision for the public</p>			

<p>Residents and Communities We will support our residents and communities</p>	<p>Community hubs will support residents to live fulfilled lives and to feel part of their community. 80% of respondents in the most recent adult library user survey said that their local library makes them feel part of their community, 97% find their library an enjoyable, safe and friendly environment, 83% said it makes them feel better, and 88% said that their library makes a difference to their lives.</p> <p>Volunteer opportunities provide a good way for people to be active in their communities.</p> <p>Community hubs will support the PCC SEP objective to improve living conditions in cohesive communities, and advance equality and opportunity through being open to everyone on an equitable basis (irrespective of protected characteristics), and free at the point of delivery. Libraries are already viewed as safe and neutral community venues where people will receive help. Meeting and engaging with others in a neutral venue fosters good relations in the community.</p> <p>Consultations are distributed through libraries, often with drop in sessions, contributing to the SEP objective to increase democratic participation.</p> <p>Transfer to a charitable model will not impact on provision for the public.</p> <p>Any libraries which have been transferred to the community to run will require ongoing support from the library service (stock, facilities, volunteer recruitment, training and support)</p>	<p>Neutral</p>	<p>Mobile library customers in particular are the more elderly and vulnerable, living in more isolated areas and frequently without their own transport; 70% of mobile library customers are aged 60+, and 58% of those who have given their gender are female. Redesign of the service to a joint model will need to ensure that vulnerable people do not lose out – work with partners needed to ensure that everyone who wants a service receives it in alternate ways.</p> <p>Further development of community hubs should lead to wider range of services/facilities available in community.</p> <p>Seek ways of extending/increasing access through working with partners - removal of barriers to access</p> <p>Cease fine payments, as barrier to access for those living in poverty and who do not use the service for fear of incurring monetary fines for late return of books.</p>	<p>Unknown</p>

Sustainable Development Principle (5 ways of working)				
Long Term: Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.	It is important that budgetary pressures do not override the opportunity to develop long term planning and ability to maintain/increase contribution to the wellbeing goals for the future. The development of community hubs is seen as a long term co-production style solution, sharing resources and costs widely. Opportunities to link with other PCC reviews and strategies in the longer term, with opportunities to improve services and outcomes for residents, must be explored Investigations of externalisation and alternative income streams are aimed at enhancing long term sustainability and reducing costs. Risk Identified	Inherent Risk Rating	Mitigation	Residual Risk Rating
Public opposition to change, leading to legal challenge of decisions and judicial review process, loss of PCC reputation, and inability to achieve savings as required under MTFs whilst legal challenge is undertaken (likely to be a lengthy process)	High	Commitment to partnership working needed. Significant opportunities for larger PCC financial savings together with improved customer service and wellbeing outcomes, through joint working in a community hub setting e.g. on Social care hubs, small business hubs, customer services review, office accommodation and agile working initiatives	High

10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
<p>This is a transformational strategy which truly reflects the views of the public, as gathered through very robust public consultation Feb-April 2019. As such, it has a high level of support from existing partners and communities. It reflects the aspirations of Vision 2025 and the Health and Care strategy. However, it also carries a real risk of failure, as it has high interdependency on partners from all sectors to genuinely collaborate, and relies on being able to effect real change.</p> <p>(Library service transformation – Development of community hubs model; service redesign and restructure to develop good quality information, literacy and digital support across county; investigation and implementation of charitable trust / social enterprise model for delivery of library/cultural services.)</p>

Proposal	Seasonal opening for Radnorshire Museum
-----------------	---

Outline Summary / Description of Proposal

Powys Museum Service
 The Council currently has 4 museums in Powys:

- Brecknock Museum and Art Gallery (Shire museum) – currently under development as Y Gaer – a co-location project with Brecon Library, completed in 2019.
- Llanidloes Museum (local/town museum) – co-location project with Llanidloes Library completed in 2016
- Powysland Museum and Cottages, Welshpool (Shire museum)
- Radnorshire Museum, Llandrindod (Shire museum)

The Judge’s Lodging (visitor attraction) in Presteigne was owned by the Council but operated by the Judge’s Lodging Trust. A freehold CAT was agreed by Cabinet in November 2016 and has been concluded.

The Museum Service also manages the Old Market Hall building in Llanidloes. This is leased by PCC from Llanidloes Town Council, but the facility run by the Old Market Hall Committee.

<p>The Economy We will develop a vibrant economy</p>	<p>Maintaining the Shire museums across the county will have a positive impact on this priority.</p> <p>Powys Museums make a valued contribution to the economy in Powys, both as local businesses and tourist attractions. To further help with financial sustainability Powys Museums must consider how they can further increase the income they already generate.</p> <p>Museums and libraries draw people into town centres, and attract tourists, both of which benefit the local shops and businesses. Sustainable Development Principle (5 ways of working)				
Long Term: Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.	This proposal puts at risk the delivery of continuing a viable service due to insufficient funds being available to meet running costs.	Poor	Explore other options and partners in order to secure a sustainable future model.	Neutral
Collaboration: Working with others in a collaborative way to find shared sustainable solutions.	The proposal will seek to establish a solution through collaboration with potential partner/s.	Unknown	All forms of potential collaboration will be explored with a view to sharing the burden of running costs & making possible the extension of opening hours.	Unknown
Involvement (including Communication and Engagement): Involving a diversity of the population in the decisions that affect them.	The y Gaer project has been widely consulted on via public consultation throughout its development from inception. However expectations around opening hours, access to community facilities etc. may not be met and will need to be managed.	Unknown	Further collaboration with community and stakeholders needed to address and attempt to overcome concerns about lack of availability of community space, reductions in facilities and access to them.	Unknown
Prevention: Understanding the root causes of issues to prevent them from occurring.	Ongoing concerns raised by Stakeholder Group and funding partners will be considered and addressed where possible.	Neutral	It will be necessary to continue to engage with staff, partners, funders, stakeholders and the public going forward, to overcome these concerns. It will also be necessary to ensure that adequate public information about the scheme is provided through press coverage and social media.	Unknown
Integration: Taking an integrated approach so that public bodies look at all the well-being goals in deciding on their well-being objectives.	The new facility will continue to provide beneficial outcomes which meet wellbeing objectives.	Neutral		Unknown
Preventing Poverty: Prevention, including helping people into work and mitigating the impact of poverty.	Libraries and museums contribute significantly through being free at the point of delivery, and the new facility will continue to do so, though access re: opening hours may be necessarily limited. 8. Achievability of proposal?

Impact on Service / Council	Risk to delivery of the proposal	Inherent Risk
Low	Low	Low
Mitigation		
Every effort will be made to minimise impacts on service users through maximising use & availability of space where possible, provision of disabled parking, etc. The same services will aim to continue to be provided although reductions in opening hours may challenge this. A reliance on alternative means of non-wholly building based service delivery e.g. outreach, use of outdoor space, supported use of online services will continue.

Proposal	Integrated Business Plan						
Outline Summary / Description of Proposal							
Achievement of a growth deal for the Mid Wales Region, in partnership with Ceredigion CC, Central and Welsh Government and Private Sector Business.							
In partnership with Ceredigion County Council we are submitting an OLT proposal for ESF Priority 5 funding to the Welsh Government. This funding would enable both Councils to cover resource costs for the programme office. If the bid were to be unsuccessful, a restructure of the Service would be required in order to meet the reduced costs required.

Proposal	Countryside access savings, 2020-2023						
Outline Summary / Description of Proposal							
<p>Countryside access has a required savings target of 30% over the period from 2020-2023. The service delivers the following activities, which are statutory with some associated discretionary powers:</p> <ul style="list-style-type: none"> - Maintenance and enforcement on public rights of way; - Maintenance, enforcement, national co-ordination and promotion of two National Trails (Offa’s Dyke and Glyndwr’s Way National Trails) - Access provision and enforcement on open access land; - Maintaining and updating the legal records of public rights of way (Definitive Map), common land and town or village greens (Commons Register) and processing of legal applications associated with these records; - Provision of advice to the public, including property searches; - Biodiversity duties. <p>The proposal is that a saving of £150,000 will be made from the core Countryside access budgets in 2020-21. For the most part, that will be achieved through a staff restructure and reduction in associated costs e.g. travel. There will also be a reduction in the amount provided to the Brecon Beacons National Park Authority for the service level agreement.</p>

4. Impact on Other Service Areas

Does the proposal have potential to impact on another service area? (Have you considered the implications on Health & Safety, Corporate Parenting and Data Protection?) PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY
<p>Corporate Health and Safety and Insurance teams – Increased risk of the team being unable to meet health and safety responsibilities in a timely way e.g. collapsing footbridges, leading to increased risk of injury and associated claims;</p> <p>Legal Services – Increased public dissatisfaction due to reduced capacity to resolve issues on public rights of way, leading to a greater number of informal and formal legal challenges and complaints. At the current time, less than 40% of the public rights of way network is assessed as being ‘open and easy to use’ and this is expected to fall with reduced resources.</p> <p>Social Services and Powys Teaching Health Board - The service will be less able to assist in meeting the priorities of other Council services and Powys Teaching Health Board services. Access to public rights of way and open space, and involvement in volunteer activities to maintain them make an important contribution to preventive healthcare, by improving mental and physical wellbeing and physical activity levels. If a greater proportion of public paths are not open and easy to use, the potential to contribute to this will be significantly reduced.</p> <p>Regeneration / Tourism - The tourism potential associated with public rights of way in Powys will be reduced, if less budget is available to ensure that paths are open and easy to use.</p> <p>Finance - The team’s capacity to generate income on a cost-recovery basis e.g. through processing public path Orders will be reduced, with less staff capacity.</p> <p>Data protection – Increased risk of errors and information breaches occurring, due to individual staff being required to address higher volumes of casework and being under pressure to complete tasks too quickly.</p>

5. How does your proposal impact on the council’s strategic vision?

Council Priority	How does the proposal impact on this priority?	IMPACT Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	IMPACT AFTER MITIGATION Please select from drop down box below
The Economy We will develop a vibrant economy	The tourism potential associated with public rights of way in Powys will be reduced, if significantly less budget is available to ensure that paths are open and easy to use. Tourism associated with outdoor recreational activities forms a significant contribution to the economy of Powys. With reduced budgets, the service will also be able to employ local contractors less often to carry out work on public rights of way.	Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.	Poor
Health and Care We will lead the way in effective, integrated rural health and care	The team's ability to work with other Council Services e.g. Social Services and Powys Teaching Health Board will be reduced. With reduced budgets, less public paths will be 'open and easy to use' which will impact on access to greenspace and outdoor recreation, which can make a significant contribution to physical and mental wellbeing and preventive healthcare.	Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.	Poor
Learning and skills We will strengthen learning and skills	Outdoor recreation and access to open space contributes to lifelong learning through play for children and adults. Volunteering can assist in skills development to support those seeking work. There will be reduced budget and staff capacity to support these activities and maintain paths in an open and easy to use condition, which will have an adverse effect these opportunities.	Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Work with volunteers and communities to carry out practical maintenance work on public paths.	Poor
Residents and Communities We will support our residents and communities	Reliance on volunteer support and engagement will increase, as budget to support use of contractors decreases. This will increase community involvement, but core funding is likely to be insufficient to allow for community aspirations to be met.	Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding.	Neutral

Sustainable Development Principle (5 ways of working)				
Long Term: <i>Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.</i>	The proposals would have an adverse impact on this goal. Failure to maintain a viable and safe public rights of way network will impact on the economic viability and attractiveness of Powys as a place to live. This may have an adverse impact on the number of working age people in the county.	Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. Collaboration: <i>Working with others in a collaborative way to find shared sustainable solutions.</i>	The proposals would have an adverse impact on the service's staff capacity to engage in collaboration. Prevention: <i>Understanding the root causes of issues to prevent them from occurring.</i>	The proposals would have an adverse impact on prevention of mental and physical health problems, as public paths would be less easy to use. There would also be an adverse impact on prevention of poverty; deterioration of the public rights of way network would impact on tourism and job opportunities in the county so increasing the risk of poverty.	Poor	Seek grants and other external funding to carry out improvement projects on public rights of way and access land, but dependent on availability of grants and staff capacity to seek and manage the funding. 8. What is the impact of this proposal on our communities?

Severity of Impact on Communities	Scale of impact	Overall Impact
Medium	High	Medium
Mitigation		
Working with communities and volunteer groups to agree community aspirations and priorities for the public rights of way network, then seeking grants or external funding to work with them to achieve those priorities. Involvement of community volunteer groups to carry out light maintenance of paths once reopened e.g. seasonal vegetation clearance to ensure long term sustainability.		

9. How likely are you to successfully implement the proposed change?

Impact on Service / Council	Risk to delivery of the proposal	Inherent Risk	
Medium	High	Medium	
Mitigation			
Good communication with stakeholders and staff is essential to achieving the savings. Staff need to be fully informed and able to contribute constructively to the process. Stakeholders need to be able to make constructive suggestions as to how they can be involved e.g. in collaborative grant funded projects to avoid frustration leading to legal challenges.			
Risk Identified	Inherent Risk Rating	Mitigation	Residual Risk Rating
Deterioration in condition of public rights of way network may result in legal challenges from members of the public, with potential for costs outweighing savings achieved	Very High	Seek grants and external funding to mitigate against impact, although can only be used for non-statutory improvements. Good communication and regular liaison with stakeholders.	High
Lack of availability of community volunteers to support work, leading to paths not being maintained in long term. This may lead to dissatisfaction and legal challenges	High	Setting realistic goals with volunteer groups that allow for fluctuations in volunteering over time. Review and monitor as time progresses to assess whether risk has increased.	Medium
Inability to address high health and safety risks due to reduced staff and budget, leading to serious accidents and injury claims that may outweigh savings achieved.	High	Allocate highest priority for staff time to addressing these risks. Apply for capital funds if appropriate or remove hazard.	Medium
Reduced staff capacity to seek external grant funding, to mitigate against the impacts of reduced core budget.	High	Work with Council's regeneration team and allocate staff time as a priority to seeking funding, although will impact on other work.	Medium
The team's capacity to generate income on a cost-recovery basis will be reduced, with less staff capacity. This will reduce ability to mitigate against core budget reductions.	High	Seek alternative ways of working to reduce staff input to chargeable activities, to release their time for core statutory work.	Medium

10. Overall Summary and Judgement of this Impact Assessment?

<p>Outline Assessment (to be inserted in cabinet report)</p>	<p>Cabinet Report Reference:</p>
<p>The proposals will have a high adverse impact, both for staff and for the public. The proposals would result in reduced staffing in the team with significantly increased workloads for individual staff, with the risk that high priority work will not be achieved. The proposals will result in deterioration of the public rights of way network, presenting an increased risk of injury claims and legal challenges. The proposals will reduce the potential for physical activity and outdoor tourism in the county, with impacts on the economy and on physical and mental wellbeing. Mitigation is entirely dependent on the availability and goodwill of community volunteers and availability of grants or external funding, so it must be recognised that mitigation may not be successful and that other risks will be realised as a result.</p>

Proposal	Bring Markets in-house						
Outline Summary / Description of Proposal							
Street Markets were transferred to Town Councils and community groups several years ago by agreement. Terms of agreement for operating the markets and income collected from them vary.							
It is considered that this could be taken back in-house as each of the agreements come to the end of its current term. PCC would then receive the full income recovery and takings from each market. This will, however, see the existing operators (mainly Town Councils) losing the income they currently receive.							
<i>*A review of the current agreements and expiry of agreements is required to better inform the financial profile, however it is considered prudent to agree the principle prior to this element of work.</i>							
<i>**An alternative option is to re-negotiate a standard settlement for all operators and markets, and / or include provision of certain services, e.g. Street Cleansing and grounds</i>

Proposal	Commissioning Review of Fleet Maintenance Service						
Outline Summary / Description of Proposal							
<p>In recognition of projected reducing fleet numbers (subject to other cost reduction proposals) and the managed fleet renewal process, further efficiency can be gained from reduced maintenance and repairs.</p> <p>This review will need to compare in-house service options (1 or 2 workshops), combined in-house and external provision (1 workshop with external support for certain locations) and fully external provision (single or multiple supplier). In-house provision will require capital investment.</p> <p>In addition to and preceding the full review, efficiencies can be gained following the introduction of a changed working pattern in 2019/20, along with the benefits of reduced repairs associated with the successful progression of the fleet replacement programme. This will enable a reduction of labour resource required, starting from 2020/21 with an anticipated reduction of 2 fte posts.</p> <p>Commissioning - Soft market testing will be needed to gauge level of interest from external suppliers. This will help the service evaluate the various options available.</p> <p>At this point we cannot determine the possible reductions that may be available through this process, but it is considered that procurement/transfer or any capital investment in-house could be achieved for 2022/23.</p>

10. Overall Summary and Judgement of this Impact Assessment?

Outline Assessment (to be inserted in cabinet report)	Cabinet Report Reference:
This proposal will primarily impact on the workforce due to the inevitable changes to terms and conditions. The impact on the public will be limited to collection day changes which could occur with any service change.	

11. Is there additional evidence to support the Impact Assessment (IA)?

What additional evidence and data has informed the development of your proposal?

12. On-going monitoring arrangements?

What arrangements will be put in place to monitor the impact over time?
The cost of the service will be closely monitored to see where efficiencies can be realised
Please state when this Impact Assessment will be reviewed.

Proposal	Reduction in Winter Service						
Outline Summary / Description of Proposal							
The Winter Service primary routes have not been reviewed for over 15 years, and many criteria for identifying routes have changed (schools, surgeries, housing, and bus routes) which will probably require changes to the winter hierarchy.							
The hierarchy needs a fundamental review in light of the current financial austerity. It is considered that the existing treatment network has certain anomalies and there is potential (subject to Council agreement) to reducing the primary treated network by approx.. 10 to 15%.							
For context, the current length of primaries is circa 1000km; therefore a 10% reduction would mean approximately 100km would no longer be regularly gritted as part of the primary network.

Welsh Government research - Assessing the Impact of Car Park Charges on town Centre Footfall, March 2015 reported *the general availability of spaces is felt by visitors to be more important than cost in their overall decision about visiting and that Whilst a 'blanket' free parking strategy has been suggested to encourage more car park users, these were generally found not to benefit target visitors ... and consequently had an unexpectedly negative impact on footfall.* <http://gov.wales/docs/caecd/research/2015/150610-assessing-impact-car-parking-charges-town-centre-footfall-en.pdf>

Proposal	Reduce Annual Revenue Contribution to Device Refresh by £200k						
Outline Summary / Description of Proposal							
Currently there is a revenue contribution to the Device Refresh of £350k per annum. Due to contract negotiation, change of equipment and reduced number of devices; this capital scheme has sufficient funds to be sustained for at least 3 years by reducing the contribution to £150k.							
At the end of 22/23; it is calculated that in total almost 1400 devices will need to be refreshed which will leave a balance of approx £0k, so the funding model will need to be revised for 23/24.							
These calculations are based on the current level of devices and staff but it is estimated that this number will decrease and therefore will be sustainable for longer.

Service Area	Digital Services	Head of Service	Diane Reynolds	Director	Ness young	Portfolio Holder	Cllr Graham Breeze
Proposal	Removal of 2 FTE from EUS due to automation						
Outline Summary / Description of Proposal							
By introducing self service and automation, it is estimated that 1 FTE can be removed from End User Services Team in each of the following years 20/21 21/22.							
Following a review in Nov 2019, it has been requested that the 21/22 savings are brought forward into 20/21.

£	£	£58 930k			£58 930k

3. Consultation requirements

Consultation Requirement	Consultation deadline/or justification for no consultation
Staff consultation required	It was original anticipated that for years 20/21 and 21/22 this can be met by natural wastage. However, if all savings within this area are brought forward into 21/22 this may not be possible and may require staff consultation.

4. Impact on Other Service Areas

Does the proposal have potential to impact on another service area? (Have you considered the implications on Health & Safety, Corporate Parenting and Data Protection?)
PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY

It was anticipated that in the first 2 years this can be achieved by natural wastage and more automated processes. However, if the organisation is unable to embrace automation or natural staff removal is not possible it is likely to have an impact on the service that the Service Desk is able to offer. E.G longer wait times for all Services provided by ICT and in turn a poorer service provided to service areas and the residents those services support.

If all savings in this area are brought forward to 20/21, this may result in a poorer service offered by ICT where automation fails to provide sufficient transformation and the digital skills across the organisation are still being developed.

As EUS is a shared team between PCC and PTHB, removing the equivalent of 2 posts in 20/21 is also likely to have a negative impact on the service being provided to PTHB and consultation with PTHB on impact to service will need to take place.

Learning and skills We will strengthen learning and skills	The EUS team provide support for Education and Schools. Removing of posts will likely result in longer wait times. The EUS team is also considered to be the Gateway to a career in ICT and has led the way in terms of apprenticeships. Too much reduction may also impact further skills.	Neutral	Automation will be implemented but the organisation will need to embrace this change in order to reduce the demand on EUS and in particular Service Desk. We will continue to encourage self-service by improving digital skills across the organisation.	Neutral
Residents and Communities We will support our residents and communities	Although ICT provide services to internal staff; many of the services that ICT supports provide services to our residents and communities. Almost all public facing services rely on ICT infrastructure or resources and therefore the reduction in further FTE is likely to have a knock-on effect to the residents and communities.	Neutral	As above. We would also communicate and raise awareness to our service users the change in the level of service that we are able to offer	Neutral

Source of Outline Evidence to support judgements

The current financial year has seen an increase in performance against SLA for all ICT Support Teams however, the teams have still not managed to meet the target of 96% of jobs being closed within SLA. Automation and Self Service has enabled the performance to increase and allow the EUS teams to upskill. Reduction in FTE over and above what has been calculated is likely to have a negative impact on this performance.

Proposal	Reduce Annual Revenue Contribution to Device Refresh by £200k						
Outline Summary / Description of Proposal							
Reduction in Contract costs (System Rationalisation Programme)							
<p>Since 2015 Powys County Council has been rationalising their ICT systems via the System rationalisation Programme. This programme has, to date led to the decommissioning of over 60 systems, along with a reduction of a number of contract costs delivering savings to the organisation.</p> <p>Alongside System Rationalisation ICT have concentrated heavily on Contract Negotiation to remove costs where possible.</p> <p>This proposal continues the above work and it is estimated that the ICT budget funding many of these corporate contracts can be reduced by £65k year on year for 3 years 20/21 21/22 22/23.</p>

Yes. The proposal to continue to reduce contract costs through the work within the System Rationalisation Programme does and will impact on other services areas (demonstrating a positive impact). The service areas that are utilising the systems that we are either rationalising or de-commissioning will be impacted, however before work commences, all effected services areas are consulted with and are engaged in the process.

Mitigation		
The main risk is to proposal 1 for restructure of the restructure of the Scrutiny, Democratic and Member services team. New ways of working and reassessment of the activities undertaken by the Service will ensure continued support for Scrutiny, Members and Cabinet. The recruitment of 1 new admin post (I possibly and apprentice) will mitigate the impact of staff reductions and ensure that more senior officers devote their full time to substantive duties rather than undertaking admin tasks.

Proposal

Outline Summary / Description of Proposal

The proposal would involve the redesign of the senior management of Property, Planning and Public Protection.

Currently the senior management team for Property, Planning and Public Protection consists of 8 Senior Managers or Professional Leads, namely:

- Professional Lead - Building Control;
- Professional Lead - Development Management;
- Professional Lead - Environmental Health (Commercial);
- Professional Lead - Environmental Health (Environmental Protection);
- Senior Manager – National Trading Standards Estate Agency and letting Agency Team;
- Professional Lead - Planning Policy;
- Professional Lead -Strategic Property;
- Professional Lead - Trading Standards, Community Safety and Emergency Planning.

The proposal would merge and reallocate responsibilities of these 8 positions. The number of FTE will therefore be reduced.

Service Area	Transformation and Communications	Head of Service	Emma Palmer	Director	Ness Young	Portfolio Holder	Leader – Cllr R Harris Deputy Leader – Cllr A Davies Cllr M Alexander Cllr J Evans Cllr P Davies
Proposal	Savings proposals for 2020-2023						
Outline Summary / Description of Proposal							

The service is proposed to receive a reduction in budget of £-99k 20/21, £-154k 21/22 and £-120k 22/23 (total reduction £-373k). Proposals to meet this requirement are set out below (for further detail see full Savings Proposal).

Proposal Title

Delete 1 FTE Grade 14 vacant Programme Manager role 2020/21 - £60,726. This saving is achievable with no impact on the public or additional cost to the authority. There would be no Programme Manager capacity across V2025 (portfolio level) and workload would need to be absorbed across the Transformation Team.

Proposed budget saving of £25,000 recurring from 2020/21 The current Communications structure includes a Digital Communications Officer at a grade 8 which is partially funded (£15k) by funding from Children's service to manage implement ongoing Foster campaign on behalf of the service. The proposal is to use Integrated care fund resources, which has two year's funding, to deliver an adult social care campaign to transform how citizens access a variety of solutions to self-care using digital solutions. The campaign 'Ask Sara' is part of the council's work to improve digital/online access to equipment, telecare/self- service as part of the health and care strategy. Initial discussion with Adult services but not commitment at this stage The proposal would deliver £20k savings from the Corporate Communication budget for 2020/21 and 2021/22. Implementing the change from October 2019 will deliver £10k additional savings. The service also proposes to reduce its discretionary expenditure by £5k, comprising of general office expenditure reduced by £2,000; catering by £1,500, advertising by £500, mobiles phones £500 and subscriptions £500.

Balance: £-398K-£85K = £-313K (to be found)

Minimal Service Offer

To be able to deliver the remaining savings £-313K this service would reduce the team from 22 FTE to only 6 FTE to support the whole organisation. The service offer would be minimal, based on legislative requirements solely:

- Corporate Improvement Plan and monitoring from quarterly to once per year
- Equality Plan and monitoring from quarterly to once per year
- Public Service Board Assessment and Plan once every five years
- Impact Assessment provision of template and framework only
- Risk Assessment and monitoring reporting ceased and provision of electronic JACAD system only
- WAO liaison from monthly to twice a year
- Submission of Statutory Performance Returns
- Regulatory Inspection Data

Impact: Lack of corporate governance, oversight at a strategic level and ability for the organisation to function with evidence-based decision making. Unable to evidence to regulators continual improvement across services. Risk: Repeat of Social Services damaging inspection.

What would stop:

- Partnership Framework and support

Cyngor Sir Powys County Council

Impact Assessment (IA)

The integrated approach to support effective decision making

- Performance Framework and monitoring
- The whole Corporate Insight Centre development: EMT Dashboard, information management, Social Services reporting, HR reporting, Schools data development, Idox system development, customer information (GOSS reporting), integrated finance reporting.
- The whole of the Analytics and Research: Rural Cost Analysis, Schools Modelling, Social Services modelling and predictive analytics, evaluation work required by Welsh Government, any form of data analysis, Powys Wellbeing Information Bank, any data development for external use.
- Service Redesign (Change and Improvement).
- Digital agenda (unless all funded by WG/Transformation Fund).

4. Impact on Other Service Areas

**Does the proposal have potential to impact on another service area? (Have you considered the implications on Health & Safety, Corporate Parenting and Data Protection?)
PLEASE ENSURE YOU INFORM / ENGAGE ANY AFFECTED SERVICE AREAS AT THE EARLIEST OPPORTUNITY**

- The proposed changes will not directly impact Health and Safety.
- The proposed changes will impact on Corporate Parenting and the organisation's ability to receive appropriate performance monitoring information and intelligence.
- There is a risk of impacting other service areas as the demand for 'effective business intelligence' will continue to increase due to the cessation of the team. There will be no resource to support the Schools, Social Services or Social Care Transformation agendas and no development of any information for use across the organisation.
- The loss of much of the team is a strategic loss to the council in pursuit of delivering Vision 2025.

5. How does your proposal impact on the council's strategic vision?

Council Priority	How does the proposal impact on this priority?	IMPACT Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	IMPACT AFTER MITIGATION Please select from drop down box below
The Economy We will develop a vibrant economy	The work of the service would not support this priority going forward.	Very Poor	Services would need to commission their own research and analysis at an additional cost to their budget.	Poor
Health and Care We will lead the way in effective, integrated rural health and care	The current heavily directed resource to supporting social care, which is a fundamental cornerstone of analyse, plan and monitoring of this priority would cease. Business analytics requirements to support North Powys future modelling and impact assessment would cease.	Very Poor	No capacity for further refinement.	Unknown
Learning and skills We will strengthen learning and skills	There would be no support to Schools Transformation.	Very Poor	Schools would have to commission expertise.	Poor
Residents and Communities We will support our residents and communities	A lighter touch to well-being and population assessments would be undertaken. Supporting HTR transformation would cease.	Poor	No capacity for further refinement.	Unknown

Source of Outline Evidence to support judgements

Please note that the service reduced by 32% in 2019/20 and current baseline does not cover the cost of the current service. 25% of the costs are already funded through alternative means e.g. Transformation Fund, Integrated Care Fund and Public Services Board funds provided by Welsh Government. Further reductions to this service pose a serious risk to the authority and an unsustainable service. Previously where additional cuts were required, the service was unable to support statutory services e.g. social care where they received no performance information contributing to a regulatory report of SERIOUS CONCERNS and resulting in the authority having to identify millions to reinvest within social services.

It should also be noted that J Salisbury, Independent Advisor to the Improvement and Assurance Board has advised the organisation to 'look to immediately strengthen the business intel/transformation team; which should be an easy business case to make on an invest to save basis'.

The Integrated Business Plan for the team provides further breakdown/detail.

Proposal	WD01 – Introduction of Salary Sacrifice Pension AVCs (£30,000), and WD06 – Removal of the 5p per mile passenger car mileage rate (£23,000)						
Outline Summary / Description of Proposal							
This documents considers the impacts of the savings generated by Workforce & Organisation Development for the financial year 2020/21.							
WD01 – The conversion of Pension Additional Voluntary Contributions (AVC) to a Salary Sacrifice Scheme provides a saving of National Insurance contributions to both the employee and employer.							
WD06 – Under the existing Travel & Subsistence Policy, both the driver (in addition to the HMRC mileage rate) and passenger can claim 5 pence per mile on business journeys. The proposal is to remove the entitlement to claim passenger rate for both the driver and passenger(s).

Proposal	WD02 - Savings from Leadership Development budget (£10,000), WD03 - Increase the uptake of Apprenticeship positions in the Council (£120,000),						
Outline Summary / Description of Proposal							
This documents considers the impacts of the savings generated by Organisation Design and Development team (Workforce and OD Service) in the financial year 2020/21 through. Moving forwards we will be able to deliver a large part of our leadership and management development through apprenticeship programmes funded from the apprenticeship levy we pay to Welsh Government. This will significantly reduce the cost to delivering our leadership training programme. We will increase the number of apprentices we appoint to the Council and will place them in substantive vacancies the Council has decided to fill. This will enable apprentices to receive on the job training and will reduce the employment cost by c £12k per vacancy (this being the difference between the average cost of a suitable post for an apprentice and the cost of the apprentice).

Consultation Requirement	Consultation deadline/or justification for no consultation
No consultation required (please provide justification)	EMT have received a paper on the apprenticeship approach and agreed the approach. Reducing the Leadership Development budget due to accessing the training through the apprenticeship levy leads to the money no longer being used to pay for the qualifications as previously required.

Council Priority	How does the proposal impact on this priority?	IMPACT Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	IMPACT AFTER MITIGATION Please select from drop down box below
<p>The Economy We will develop a vibrant economy</p>	<p>Reduction in Leadership development budget – no effect</p> <p>Increase the uptake of Apprenticeship positions in the Council – Increasing the entry routes into the council may increase the retention of the 16-25 age group within county. This will aid the economy by the development of skilled workers within the county increasing the skilled workforce availability and enhancing the economic spending within local businesses and services.</p>	<p>Very Good</p>	<p>Utilising the Apprenticeship Levy better will create an improved ROI in terms of the council’s recovery of it’s spending on training and development.</p> <p>The council will seek to fill entry level roles with apprentices from in and around Powys; who will mainly come from school leavers, unemployed people and people who want to return to employment. Many of this group may well have sought employment or further education outside of Powys, the apprenticeship programme should therefore help and protect the future workforce in an aging population.</p>	<p>Very Good</p>
<p>Health and Care We will lead the way in effective, integrated rural health and care</p>	<p>Reduction in Leadership development budget – no effect</p> <p>Increase the uptake of Apprenticeship positions in the Council – Protecting the future workforce availability within social care is a priority. Social care is a high turnover sector. The council will look to increase the use of apprentices within Social care. Social care has a particularly high level of older workers, the engagement of apprenticeships will help to address some of this imbalance.</p>	<p>Good</p>	<p>Apprenticeships in Social care will be developed in conjunction with Powys Teaching Health Board to allow progression through the health and social care career pathway across multiple organisations within Powys, enhancing the attraction for young people who can make a lifelong career in the sector.</p>	<p>Very Good</p>

Council Priority	How does the proposal impact on this priority?	<u>IMPACT</u> Please select from drop down box below	What will be done to better contribute to positive or mitigate any negative impacts?	<u>IMPACT AFTER MITIGATION</u> Please select from drop down box below
<p>Learning and skills We will strengthen learning and skills</p>	<p>Reduction in Leadership development budget – no effect due to utilising Apprenticeship Levy mechanism.</p> <p>Increase the uptake of Apprenticeship positions in the Council – Through appropriate workforce planning, a training needs analysis for each service will be conducted and collated, this will allow for the councils L&D department to better respond to the needs of the council, improving the skills sustainability whilst contributing to potential financial efficiencies by training the right people at the right time. Developing the use of Higher Apprenticeships will further strengthen the career pathways in the council.</p>	<p>Good</p>	<p>Potential for a greater ROI on the levy usage to return training cost equivalent greater than we pay into the scheme, making the Powys Pound go further in learning and development.</p> <p>Creating more opportunities for Apprentices within the county will aid the learning and skills development of Powys residents.</p>	<p>Very Good</p>
<p>Residents and Communities We will support our residents and communities</p>	<p>Reduction in Leadership development budget – no effect</p> <p>Increase the uptake of Apprenticeship positions in the Council – an increase in apprenticeship positions will improve the ability of services to achieve financial savings targets within the MTFP. Maintaining the financial robustness of the council is extremely important in this time of austerity, whilst delivering much needed and essential services to our residents.</p>	<p>Good</p>	<p>The increase in apprenticeships will enhance opportunities for one demographic group proportionately and may reduce the opportunities for other groups. Communications of the positives of providing opportunities for the next generation workforce should help address any concerns with other groups.</p>	<p>Neutral</p>

Sustainable Development Principle (5 ways of working)				
Long Term: <i>Looking to the long term so that we do not compromise the ability of future generations to meet their own needs.</i>	Workforce planning facilitates the future by futureproofing services. Understanding the future recruitment and training requirements allows for planning and appropriate processes to be implemented. A comprehensive apprenticeship programme will support the engagement of young people and other age groups in Powys and will also help to future proof the talents and workforce we will need over the coming years.	Good		Choose an item.
Collaboration: <i>Working with others in a collaborative way to find shared sustainable solutions.</i>	Partnership working is one of our key focuses and will be a focus of our Workforce Futures and wider Transformation Programme going forwards. The Health and Care Strategy outlines how we will achieve this. We plan to facilitate this work through re-design and Learning and Development contained in PSB/Area plan. Workforce planning for the joint health and social care workforce of Powys is one area we will work jointly in delivering with the PTHB and other partners. The apprenticeship programme is a key aspect of this.	Good		Choose an item.
