Impact Assessment (IA)

The integrated approach to support effective decision making

Please read the accompanying guidance before completing the form.

This **Impact Assessment (IA)** toolkit, incorporates a range of legislative requirements that support effective decision making and ensure compliance with all relevant legislation. **Draft versions of the assessment should be watermarked as “Draft” and retained for completeness. However, only the final version will be made publicly available. Draft versions may be provided to regulators if appropriate. In line with Council policy IAs should be retained for 7 years.**

Proposal	Llanfyllin Catchment Programme Business Case				
Outline Summary / Description of Proposal					
<p>The Council has developed a Programme Business Case (PBC) in respect of the Llanfyllin Catchment. The PBC identified the following preferred way forward for the Llanfyllin Catchment:</p> <ul style="list-style-type: none"> - A new community campus for 900 pupils aged 4 – 18 in Llanfyllin, replacing the current poor condition buildings of Ysgol Llanfyllin – to be built on the current Ysgol Llanfyllin site. - To establish and build a new 360 place area school, to replace Carreghofa School and Llandysilio C. in W. School – this could also potentially include neighbouring schools in the Welshpool catchment as well. Site to be confirmed. - To establish a new Welsh-medium school on the current Llanrhaeadr-ym-Mochnant site, replacing both Ysgol Pennant and Llanrhaeadr-ym-Mochnant Primary School. This may require capital funding to extend the school. - To provide an extension to Llansanffraid CiW Primary School. - Possible closure of Llangedwyn CiW School, Llanfechain CiW School and Ysgol Bro Cynllaith. <p>The Council’s Cabinet will consider the PBC on the 29th September, and will be asked to approve the following:</p> <ul style="list-style-type: none"> - To submit the PBC to Welsh Government’s 21st Century Schools Programme for investment - To bring back a further report to Cabinet by December 2020 outlining the initial school reorganisation proposals required. Full consultation will be undertaken before any final decisions are made. <p>This initial impact assessment considers the potential impact of implementation of the preferred way forward identified in respect of the Llanfyllin Catchment. Should the Council proceed with implementation of the preferred way forward as outlined above, the impact assessment will be updated at each stage of the process.</p>

IMPACT AFTER MITIGATION Please select from drop down box below
The Economy We will develop a vibrant economy	Implementation of the preferred way forward would result in significant capital investment in the area, consisting of a new build all-age school and a new build area primary school. However, the preferred way forward would result in a significant reduction in the number of schools in the catchment. This could have an impact on employment opportunities, particularly in the villages where there would no longer be a school.	Neutral	Potential impact on staff at all schools to be considered when identifying the steps to be taken to achieve the preferred way forward to ensure equal opportunity for staff.	Neutral
Health and Care We will lead the way in providing effective, integrated health and care in a rural environment	No impact	Neutral		Choose an item.

<p>Learning and skills We will strengthen learning and skills</p>	<p>Implementation of the preferred way forward would provide two new build primary schools to replace poor quality buildings in the catchment area.</p> <p>In particular a new build all-age school would be provided, which would enable the newly established Ysgol Llanfyllin to maximise the benefits of the all-age model. The new building would improve the educational experience provided to learners, ensuring that the school can provide education which fully meets the requirements of the new curriculum.</p> <p>Implementation of the preferred way forward would also result in closure of the smallest schools in the catchment area. Whilst this would impact on learners in the short term, in the longer term pupils would attend larger schools, with enhanced facilities which would be better equipped to provide the best possible learning opportunities to pupils.</p>	<p>Very Good</p>		<p>Choose an item.</p>

<p>Residents and Communities We will support our residents and communities</p>	<p>The proposal would have a positive impact on residents in the Llanfyllin catchment area as it would provide access to new build, 21st Century Schools facilities. Community facilities could also be provided as part of any new build development, which would improve / enhance the facilities available to the community.</p> <p>Implementation of the preferred way forward would mean that there would eventually be no provision in some areas, therefore there would be a greater impact on residents living in these areas due to there being no school in the village.</p> <p>Whilst home to school transport would be provided to eligible pupils to their nearest alternative school, it is acknowledged that there would be an impact on pupils' ability to access after school activities, and there would also be an impact on families in terms of attending school activities. However, pupils travelling to school from these areas would potentially be accessing a brand new building, with improved accommodation and enhanced opportunities compared to those currently available to them.</p>	<p>Neutral</p>		<p>Choose an item.</p>

<p>A prosperous Wales: An innovative, productive and low carbon society which recognises the limits of the global environment and therefore uses resources efficiently and proportionately (including acting on climate change); and which develops a skilled and well-educated population in an economy which generates wealth and provides employment opportunities, allowing people to take advantage of the wealth generated through securing decent work.</p>	<p>The preferred way forward would result in a new build all-age school and a new build primary school in the Llanfyllin catchment, as well as possible community facilities.</p> <p>Community benefits to include opportunities for traineeships / apprenticeships are a key requirement of 21st Century Schools projects, therefore it is anticipated that these opportunities would be available as part of implementing the preferred way forward.</p>	<p>Good</p>		<p>Choose an item.</p>

<p>A resilient Wales: A nation which maintains and enhances a biodiverse natural environment with healthy functioning ecosystems that support social, economic and ecological resilience and the capacity to adapt to change (for example climate change).</p>	<p>Implementation of the preferred way forward would result in two new build schools in the Llanfyllin catchment. This would result in more environmentally friendly buildings, which would be more energy efficient than the current buildings.</p> <p>Implementation of the preferred way forward would also require additional travel for some pupils living in the catchment area. This would have a negative environmental impact as more home to school transport would need to be provided to transport pupils.</p>	<p>Neutral</p>		<p>Choose an item.</p>
<p>A healthier Wales: A society in which people's physical and mental well-being is maximised and in which choices and behaviours that benefit future health are understood.</p> <p>Public Health (Wales) Act, 2017: Part 6 of the Act requires for public bodies to undertake a health impact assessment to assess the likely effect of a proposed action or decision on the physical or mental health of the people of Wales.</p>	<p>Implementation of the preferred way forward would result in a new build all-age school and a new build area primary school in the catchment, as well as possible community facilities. This would have a positive impact on the well-being and morale of both pupils and staff.</p> <p>As part of the development of a new all-age school in Llanfyllin, consideration would be given to the inclusion of community facilities. A Wales of cohesive communities: Attractive, viable, safe and well-connected Communities.	Implementation of the preferred way forward would result in new educational facilities across the area. Providing community facilities is a key consideration as part of all new build projects, therefore it is likely that community facilities would be provided as part of implementing the preferred way forward. A globally responsible Wales: A nation which, when doing anything to improve the economic, social, environmental and cultural well-being of Wales, takes account of whether doing such a thing may make a positive contribution to global well-being. Human Rights - is about being proactive (see guidance) UN Convention on the Rights of the Child: The Convention gives rights to everyone under the age of 18, which include the right to be treated fairly and to be protected from discrimination; that organisations act for the best interest of the child; the right to life, survival and development; and the right to be heard.	The aim of implementing the preferred way forward is to provide the best possible opportunities to all learners in the area, enabling them to reach their full potential. Should the Council proceed with plans to implement the preferred way forward, a consultation exercise would be required, which would include consultation with children and young people affected by the proposal, ensuring that all affected by the plans have the opportunity to give their views. A Wales of vibrant culture and thriving Welsh language: A society that promotes and protects culture, heritage and the Welsh language, and which encourages people to participate in the arts, and sports and recreation. <i>Incorporating requirements under the Welsh Language (Wales) Measure 2011 and the Welsh Language Standards</i>

<p><i>Opportunities for persons to use the Welsh language, and treating the Welsh language no less favourable than the English language</i></p>	<p>Implementation of the preferred way forward would mean that a higher proportion of the schools in the catchment would either be Welsh-medium or dual stream school, therefore more pupils would have the opportunity to access Welsh-medium provision.</p> <p>The preferred way forward includes the establishment of a new area school to replace a number of schools in the Llanfyllin / Welshpool catchment area. As one larger school, there would be an opportunity to introduce Welsh-medium provision in this school, which would provide new opportunities for pupils living in these areas to access Welsh-medium education.</p> <p>The proposed changes in the Llanfyllin catchment would significantly raise the profile of Welsh-medium provision in the area, which should lead to an increase in pupils numbers, therefore contributing to the Welsh Government target to achieve a million Welsh speakers by 2050. In the longer term, this should have an impact on the Welsh-medium opportunities available in the secondary sector in the area.</p>	<p>Very Good</p>		<p>Choose an item.</p>

Whilst home to school transport would be provided to eligible pupils, it is possible that this would impact on pupils' ability to access extra-curricular / after school activities, and that this impact would be greater in respect of pupils from lower income households. There would also be an impact on the parents of these pupils in terms of accessing school activities.	Neutral		Choose an item.

10. Overall Summary and Judgement of this Impact Assessment?

<p>Outline Assessment (to be inserted in cabinet report)</p>	<p>Cabinet Report Reference:</p>	
<p>The impact assessment suggests that the impact is generally positive with some negative aspects, such as the requirement for some pupils to travel further than they currently do to school. The development of new facilities for schools in the Llanfyllin area would address many issues related to the poor condition of the buildings, ensuring future pupils are taught in facilities that are fit-for-purpose, improving their learner entitlement and experience. The proposed changes in the Llanfyllin catchment would significantly raise the profile of Welsh-medium provision in the area, which should lead to an increase in pupils numbers, therefore contributing to the Welsh Government target to achieve a million Welsh speakers by 2050. In the longer term, this should have an impact on the Welsh-medium opportunities available in the secondary sector in the area.</p>
