4.2 20/1010/OUT Former School Playing Field At, James Street,
Ystradgynlais, Powys, SA9 1EX

Grid Ref:	E: 278742 N: 209843
Valid Date:	08/07/20
Community Council:	Ystradgynlais Town Council
Applicant:	Mr G Price
Location:	Former School Playing Field At, James Street, Ystradgynlais, Powys, SA9 1EX
Proposal:	Erection of two detached dwellings and associated works
Application Type:	Outline planning

County Councillor S McNicholas spoke as the local representative.
Mr G Price spoke as the applicant.

The Principal Planning Officer advised in response to a question that there was a very slight slope on the site. In response to questions regarding the weight the Committee should give to the flood consultant's report submitted by the applicant, the Principal Planning Officer advised that this was a Flood Risk Supporting Statement. She clarified that the applicant had submitted a Flood Consequences Assessment [FCA] with the application but advised that a FCA is not requested for a proposed highly vulnerable development in a C2 flood zone, as National and Local policy does not allow such developments in a C2 flood zone. She clarified that a FCA would only be assessed where highly vulnerable development had been justified in accordance with the tests set out in TAN15 and confirmed the application could not be justified against any of the tests and compliance with all are required. The Committee noted that the local representative and applicant had advised that they had not known the site to flood. The Principal Planning Officer advised that this was anecdotal evidence and the Flood Risk Statement indicated that the site was vulnerable to an extreme 0.1% annual probability event the site floods.

The Principal Planning Officer advised that hydrological data had not been reviewed as the application was contrary to policy. In response to questions regarding the Natural Resources Wales' [NRW] Development Advice Maps [DAM] she advised the Committee that it would be for the applicant to challenge the NRW regarding the map. She advised that the DAM for this area had been updated at the end of 2019 and the area remained in the C2 flood zone.

In response to questions regarding the applicant's proposal to raise the floor level of the buildings the Principal Planning Officer advised that this would risk displacing flood water to other areas.

It was moved and duly seconded to refuse the application as recommended by the officer.

RESOLVED: that the application be refused.	Reason for decision: The proposal will lead to the introduction of highly vulnerable development within Zone C2 as defined by the Development Advice Maps referred to under TAN15 Development and Flood Risk (2004). The development is contrary to policy DM5 of the Powys Local Development Plan (2011-26), Technical Advice Note 15: Development and Flood Risk (2004) and Planning Policy Wales (2018).
