4.	POWYS NATURE RECOVERY ACTION PLAN
-----------	--

Cabinet considered the Powys Nature Recovery Action Plan which was intended to guide the work of the Powys Nature Partnership, a group of organisations and individuals committed to reversing the declines in biodiversity across Powys. It had been prepared by an Ecological Consultancy and Powys County Council in consultation with the Powys Nature Partnership.

At the heart of the PNRAP was the ambition to reverse the declines in biodiversity in Powys by focussing on developing resilient ecological networks (also known as 'nature recovery networks'). The PNRAP took an ecosystem approach, meaning that it was designed to deliver biodiversity action at a larger scale than a single species or habitat and takes account of the needs of people at the same time. It was an aspirational 10-year plan and it was intended that the actions included within the plan would be regularly reviewed and updated within the 10-year life of the plan, in response to circumstances.

The PNRAP was a key mechanism for helping prioritise, deliver, and monitor nature recovery in Powys. It provided a local delivery framework for compliance with Wales' environmental legal and policy drivers and the Nature Recovery Action Plan for Wales. The adoption of the Nature Recovery Action Plan provided a demonstrable way of assisting the Council to deliver its obligations to the Environment (Wales) Act 2016 and Wellbeing of Future Generations (Wales) Act 2015. It went hand in hand with the Climate Change Strategy.

Cabinet commended the work of officers in producing the strategy.

RESOLVED

- 1. The Council adopts the PNRAP as at appendix A and continues its commitment to the Powys Nature Partnership, to help the Council to meet its duties under the Environment (Wales) Act 2016 and Wellbeing of Future Generations (Wales) Act 2015.**
- 2. The actions within the plan (appendix B) are reviewed annually by the Powys Nature Partnership.**
- 3. Progress towards delivering the plan should be monitored through the production of an annual report by the Partnership.**

5. CLIMATE CHANGE STRATEGY

Cabinet considered the revised Climate Change Strategy which had been updated following a consultation exercise and presented to the Climate Action Programme Board and the Cross-Party Working group. The revisions addressed a number of issues highlighted in the consultation. The Portfolio Holder thanked everyone who had taken part in the consultation and said she would welcome engagement from a wider range of groups. She thanked the members of the Economy, Residents and Communities Scrutiny Committee for their detailed consideration of the Strategy and their recommendations. She referred to the positive role of agriculture and noted that the Climate Change Strategy went hand in hand with the Procurement Strategy and the benefits of procuring locally sources produce.

RESOLVED to approve the publication of the Climate Change Strategy as set out in Appendix A to the report.

-----------	---

Cabinet was asked to approve a Partnership Agreement between Powys County Council, Powys Teaching Health Board and Powys Association of Voluntary Organisations for the provision of the Powys Regional Partnership Board Regional Infrastructure Team. This agreement set out funding in relation to the Regional Infrastructure Team, which provides management of the Regional Partnership Board functions, as required by duties under Part 9 of the Social Services and Wellbeing Act 2014. The purpose of the agreement was to formalise the use of the Regional Integration Fund (RIF) in delivering the Regional Infrastructure Team, as required by the Welsh Government's RIF Guidance.
