STEP 1. S	ET UP AND BUY IN					
Ref	Actions	Lead	Rag Rating	Plan Start	Plan Finish	Progress
1	Establishing senior level support and governance structures					
1.1	Engage with PSB, RPB and sub-groups	Powys Public Health Team (PPHT)		Apr-22	Ongoing	Presented Whole System Approach to Health Weight (WSA) work to PSB, Start Well and Live Well groups. WSA to Healthy Weight has become a PSB priority area. Workstream will report to PSB on a quarterly basis.
1.2	Engage with senior level stakeholders within PCC, PAVO and PTHB.	PPHT		Apr-22	Ongoing	Number of 1.1 meetings held to introduce the WSA approach to key individuals. Individuals invited to initial WSA engagement events held in October 2022 and January 2023.
						The WSA workstream will report to the PSB on a quarterly basis.
1.3	Establish local governance structures.	PPHT		Dec-23	Oct-23	The WSA workstream is built into PTHB's IMTP and progress will be reported on quarterly basis.
1.4	Attend national WSA System Lead meetings and workshops organised by Public Health Wales (PHW). Continue to report into national structure and provide local updates.	РРНТ		Apr-22	Ongoing	Powys Public Health Team representative attends national meeting every 2 months. Progress and shared learning are discussed. Reporting to Public Health Wales and Welsh Government is submitted quarterly (qualitative reports and financial reports)
	DEFINING AND MAPPING THE SYSTEM	land.	Dan Dation	Dian Stant	Dies Finish	0
Ref 2	Actions Understanding local system, identifying which partnerships and organisations to engage with	Lead	Rag Rating	Plan Start	Plan Finish	Progress
2.1	Conduct mapping exercise to identify key individuals and organisations, strategic groups, priorities and key strategic plans in Powys.	PPHT		Jul-22	Sep-22	Mapping exercise conducted. Maps produced using KUMU software and presented at WSA engagement events in October 2022 for stakeholders to review. Folloing comments received, the mapping was finalised ahead of the second engagement event in Janaury 2023.
2.2	Based on mapping, identify strengths and gaps in current system including existing and potential links to obesity prevention. This should include potential levers and opportunities as well as issues	PPHT		Oct-22	Feb-23	Maps were presented at our engagement event in October 2022 to support the discussions at the engagement events. Stakeholders were able to examine the maps and identify potential areas of focus for the WSA in Powys.
STEP 3: C	and conflicting priorities. Creating a System Change Narrative					
Ref	Actions	Lead	Rag Rating	Plan Start	Plan Finish	Progress
3	Develop narrative of why obesity matters and how obesity is currently being addressed locally					
3.1	Develop a narrative of the local healthy weight system	PPHT		Jul-22	Sep-22	Local and national evidence has been collated and reviewed to inform an in-depth narrative of the current picture of overweight and obesity in Powys. The narrative was taken to our engagement events in October 2022 for stakeholders to review.
	YSTEM ENGAGEMENT

Key organisations, individuals, activities, projects and plans have been identified and mapped using Excel. Mapping exercise conducted focusing on the area of 'Children, Families and Access to Healthy Food'. Key organisations, individuals, activities, projects and plans have been identified and mapped using Excel. Mapping has enabled the team to identify key stakeholders to invite to engagement events in May 2023. Progress Two planning sessions were held on different days and at different locations in May 2023. Stakeholders reviewed the information collated to date and began to identify areas of focus within the area of children, families and access to healthy food. Key areas identified included cooking skills, introduction to solids, breastfeeding and affordability of healthy food. Based on the areas identified at the planning sessions, the local public health team have produced evidence briefings on the four focus areas to identify connections, assets, gaps and potential areas to intervene. A systems map for Children, Families and Access to Healthy Food has been produced following the planning sessions in May. Further maps for infant feeding, breastfeeding, affordability of healthy food and cooking skills have also been produced. Progress A Strategic Delivery Plan will be developed based on the mapping carried out in step 6. The Strategic Steering group will have oversight of this plan. The actions within this plan will be developed in partnership with stakeholders at workshops scheduled for November and December 2023. Series of workshops have been held along with individual meetings with stakeholders. Next Strategic Meeting is scheduled for January 2024. Stakeholder engagement workshops planned for November 2023 and December 2023. These workshops will inform the developement of the Str
